

## English version

### 1. Hafle / events on 06.06.2009

Erdoyo Hello Friends,

on 06.06.2009 was our first Erdoyo Hafle in the Syriac Orthodox community hall St. Mary (Nindas Aloho) in the Oak Allee 100 D-33332 Gütersloh instead.

Our first Hafle was a resounding success. There were about 450 Erdoye and their sons-in-law with children and friends from Germany, Belgium and Sweden attended.

The singer Robert Demir, Shamoun Katrin Zeki Demir and have your musical contribution to a very good mood ensured. The Moderator for the meeting, Musa Dilmac and James Dakin led. Another highlight was the poem by Musa Dilmac in the Aramaic language of our home village. Add to Kurdistan was the touching poem of mine, Ibrahim Göksin translated.

The pedigree with a size of about 10 square meters was also for many, especially for the younger generation very interesting. You could see exactly how almost all the villagers over 11 generations with each other. At the request of many, this tree until the next Hafle with new data and images completed, so that everyone Erdoyo and his descendants is listed. This tree, which I do for 2 years, all families for their own use be made available, not to forget where we come from and how we continue to have increased. Our thanks also to our two TV stations, which for us this evening for the ages have held.

It was very nice to see that many Erdoyo since their emigration from the homeland, at this Hafle the first time again have seen. Even the young people and children were each presented and it has newly learned. The atmosphere was very friendly, because you knew that almost all on this Hafle the same story and have the same ancestors. One can say that those who for whatever reason, could not participate, in any case what have missed.

Again thank you all for all volunteers, especially the friends in Gütersloh, for the good organization and preparation, this meeting possible. We hope that through this meeting new contacts between the villagers are, and maybe soon again a nice event to take place. The next time you can then perhaps all Erdoye and their friends participate.

Also thank you for the positive feedback and many thanks to the participants after the Hafle. It's nice that it all has fallen. The three-year preparation period, a result of the positive response to any event worth it ..

Here again, due to the large demand, I present an Excel list to complement the tree <http://die-ruhestandsplaner.com/erdoyo/vorschlaege.html> data available. This you can fill with your data and then send to me.

Or simply the tree program to download and fill in your e-mail.  
The program you can down right here Loden. [hier downloaden](#).

Yours sincerely,

Göksin Ibrahim
